PLYWOOD

K-Board Ply offers a wide range of meticulously engineered, incomparably superior plywood products for increasingly diverse applications like furniture, partitions, floors, doors, kitchen cabinets, wall sheathing, etc.

- 710 Platinum ■ 710 Gold ■ 710 Silver
- 303 BWR ■ 303 MR Ply
- Shuttering ISI 4990 ■ Chequered Ply ■ Pine Block Board

TOTAL WOOD SUBSTITUTE SOLUTIONS.

DECORATIVE VENEERS

K-Board Decorative Wood Veneers highlight the natural beauty of timber. They are produced by either slicing or peeling a much larger piece of timber log into thin slices or veneers. It will be perfect for interior furnishing applications. Mainly available designs: Teak, Walnut, Sapeli, Wenge and Rosewood.

LAMINATES

K LAM High Pressure Laminates are made of specially selected decorative papers and absorbent kraft paper impregnated with Melamine and Phenolic resins. These are then pressed and hardened under heat and high pressure.

Available in: .72 liners, .8mm and 1mm.

Available finishes: High gloss, Texture and Veneer finish.

FINGER JOINT

High quality K-Board finger joint boards made from treated wood. These are kiln dried, finger jointed, edge glued and cold pressed to provide the same strength and dimensional stability of solid wood. Available in 12mm & 18mm thickness.

VENEERED MDF

Veneered MDF is made from quality real wood veneers bonded to premium MDF. The core is High Density Fibre Board. Each piece is unique and the variation in shading, colour, structure, grain and the inclusion of knots and fissures are the characteristics of the product. Veneered MDF is an ideal alternative to solid woods and it is used for a number of purposes including making office furniture, panel mouldings, dining sets, fire surrounds and many more.

Major Clients

PVC FOAM BOARD

PVC Foam Board is made of light weight, foamed PVC. It has low water absorption and is resistant to moisture, corrosion, chemicals, etc.

K-Board PVC Foam Board is available in high density and medium density Foam Sheets, in 8 x 4 size with various thicknesses.

DOORS

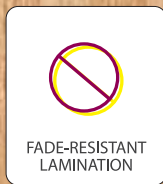

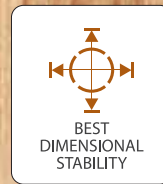

K-Board Doors provides robust insulation against dust, heat and sound. These are processed using our advanced machinery to keep the structure perfect and dimensions accurate and stable.

HIGH GLOSS UV

High Gloss Ultra Violet Coating is an Acrylic adhesive based decorative lacquer which is cured by Ultra Violet rays in a series of closed chambers. UV Coating is a very polished, lustrous coating applied to a panel surface which could be Melamine impregnated Prelam. UV coating is available in all solid colours.

High Gloss UV Coated Panels are ideal for application in cupboard & kitchen shutters, furniture panels, wall paneling, etc.
